# Hybrid Pro Modular Closet 03

#### HPT-03

The Hybrid Pro<sup>™</sup> Modular Closet 03 showcases your brand and is a great add on to any island exhibit. It provides a locking door to store items and protect belongings at trade shows and live events. Easily push in the seamless SEG fabric graphics into the strong aluminum extrusion frames for a simple and convenient set up.

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications.

### features and benefits:

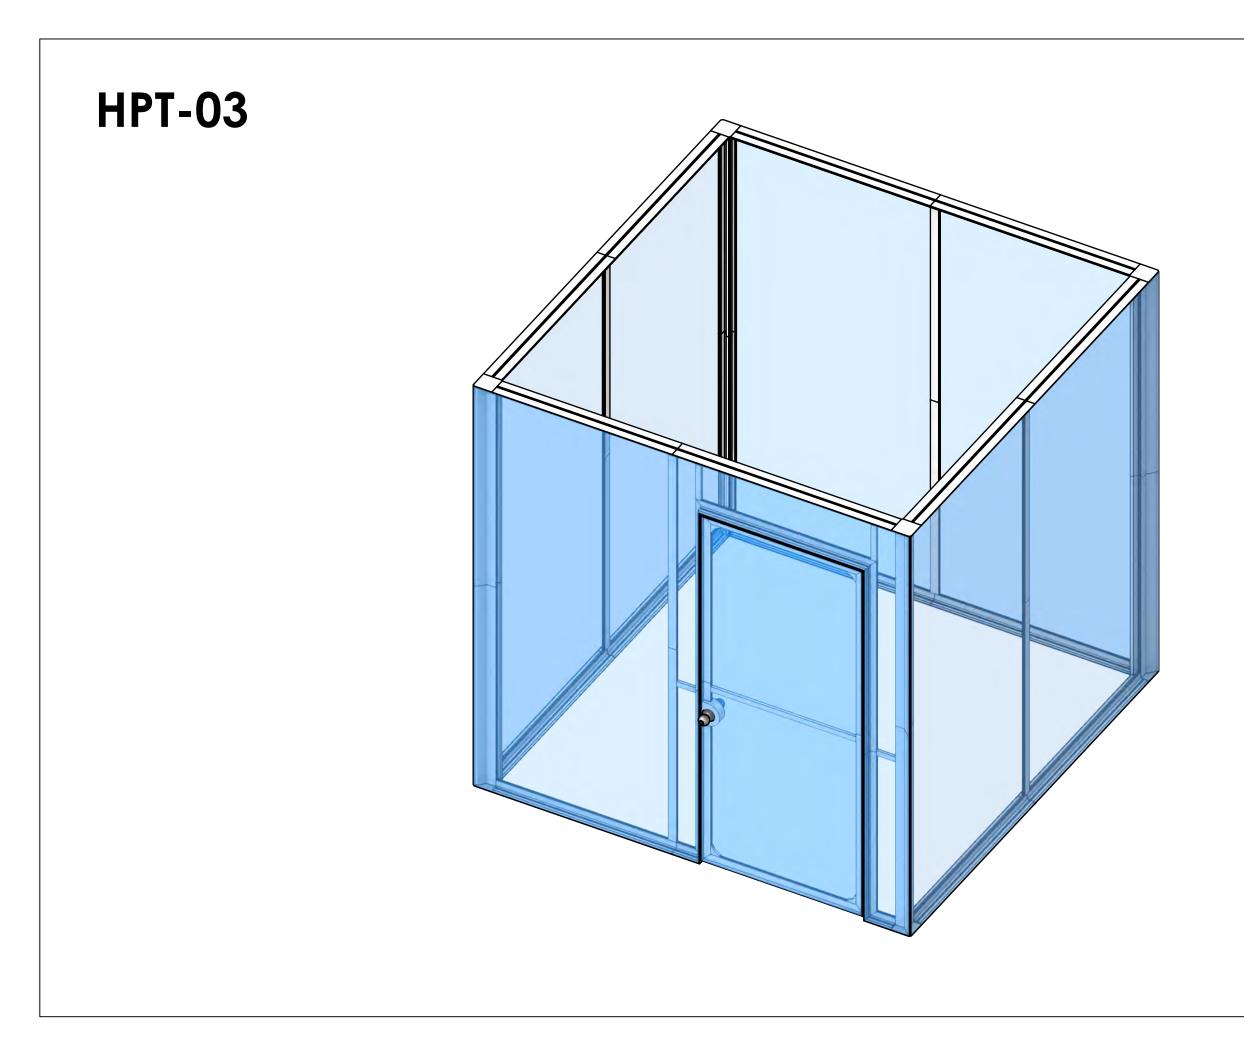

- Closet provides locked and accessible storage and offers ample real estate for messaging and branding.
- Kit includes silver extrusion frames, door and push-fit fabric graphics.
- Locking doors keep contents within secure.
- Ships freight

#### dimensions

Hardware	Graphic
Assembled unit: 94.5"W x 94.5"H x 94.5"D 2400mm(w) x 2400mm(h) x 2400mm(d) Approximate weight: 256lbs / 116.4 kg	Refer to related graphic templates for more information Visit: www.exhibitors-handbook.com/ graphic-templates Graphic material: Dye-sublimated fabric

## FABRIC, VINYL & UV GRAPHIC CARE GUIDELINES

#### GENERAL HANDLING FABRIC GRAPHICS

- Your fabric graphics should always be handled in a clean and dry area with clean hands. When possible, use white fabric gloves.
- Be sure fabric is clean and dry before packing.
- Machine washing and/or drying is not recommended for all fabrics. Refer to the chart below for which fabrics are washable.

#### **EMERGENCY STAIN TREATMENT (FABRIC)**

- 1. For dry stains, like loose dirt or pencil marks, try inititally using masking tape or Magic Eraser (dry-not moistened).
- 2. Introduce water or liquids to treat stains, if at all possible, treat the stain with fabric off of the frame.
- Place a clean dry cloth behind stain (to absorb stains while being treated). Mositen another cloth initially with just water (distilled water is optimal, if available).
- Gently blot stain with moistened cloth (or small area of moistened Magic Eraser), while trying to push stain through to the back, using the dry cloth to absorb.
- Repeat using care to keep the wet area as small as possible.
- Grandma's Secret Spot remover can be an effective stain remover. Mix severall drops in a small cup with clean water. Repeat above and using dry cloth on back of stain to absorb.

#### MACHINE WASHING FABRIC GRAPHICS

- Cold water/delicate cycle/tumble dry low or air dry. For stretch fabrics do not use dryer, let hang dry.
- Use caution on dryer time with graphics containing liners. It's best to put tension fabric on frame when fabric is still damp and let it air dry. Always be sure that the aluminum frame is clean when mounting the damp graphic.
- Fabric stretch graphics that are washed and mahcine dried may shink up to 3/4" per every 50" of fabric in the direction of the stretch and shink up to 1/4" in non stretch direction.

#### **STORING & PACKING BACKLIT GRAPHICS**

- To avoid cracks in the ink or having to steam graphics, Backlit fabrics should be loosely folded with bubble wrap or stored around a tube.
- Avoid folding the graphic tightly to store in a small bag or box.

#### **GENERAL HANDLING VINYL & UV GRAPHICS**

- Vinyl banners and rigid graphics should always be handled in a clean and dry area with clean hands. When possible, use white fabric groves.
- Be sure vinyl/ UV is clean and dry before packing. Always follow material handing and packing instructions included.
- All vinyl material should be rolled with graphic facing in to protect the graphic printed side. Roll on a tube in available.
- Avoid folding material to reduce the risk of crease lines and chipped inks. If a graphic must be folded, try and fold loosely and as few times as possible.

#### **EMERGENCY STAIN TREATMENT (UV)**

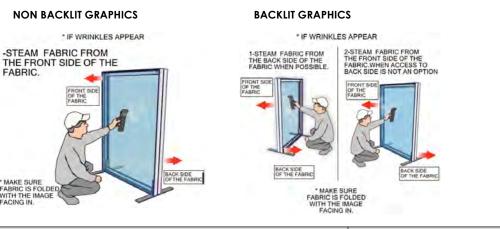

- For dry stains, like loose dirt, pencil marks or adhesive, try initially using masking tape, Masking tape can be quite effective at lifting dry surface dirt. Try 'pulling' as much of stain away as you can and avoid rubing the stain into the material.
- While using Windex® avoid scrubbing harshly. Too much pressure can fade the graphic print.

All mural panels, truss panels and detachables should be rolled with the graphic facing out to protect the graphic printed side. Mural panels should be stored in the original plastic sleeves that are provided with the panels.

#### STEAMING FABRIC GRAPHICS

- installed securely on the frame.
- water containing hard minerals.
- with steamer.
- on graphic

### **GENERAL HANDING OF ROLLABLE PVC PANELS**

• For optimal results, steam wrinkles when fabric is tensioned and

• Fill steamer with clean drinking water or distilled water. Avoid using

• Hold steamer upright and hold close to fabric. Avoid touching fabric

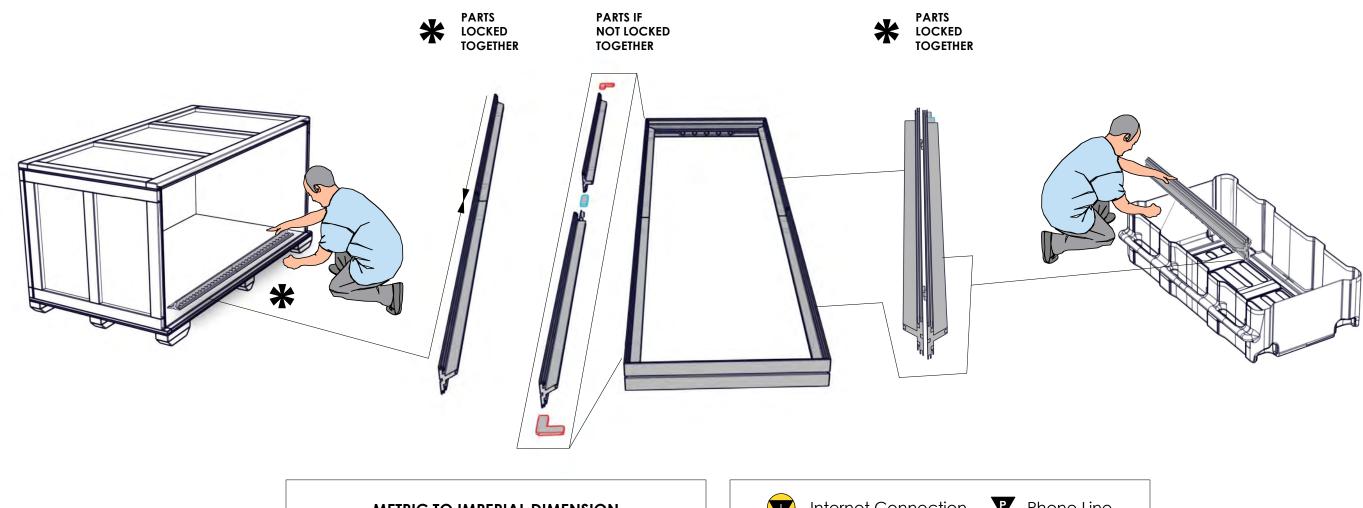

• Do not tap steamer as water drips may cause water marks to from

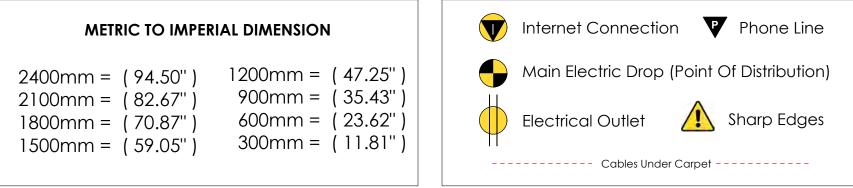

## **SETUP NOTES**

Redesign of this exhibit without approval by Orbus may result in dangerous and unsafe structures. Nimlok disclaims any responsibility for redesigned exhibits it does not approve in writing.

Parts and components such as panels and extrusions are manufactured to metric sizing. Where ever possible sizes have been noted in feet and inches as well as in metric. Below is the imperial to metric sizing table for reference. "Nominal" refers to approximate size.

### NOTE: PARTS MAY COME PRE-ASSEMBLIED FOR PACKING PURPOSES.
